

## **Polymers 2019. Production. Recycling. Logistics.**

**9.30** Registration of participants

**10.00** Grand opening of the Forum

**10.30** Session 1. RAW MATERIAL BASE OF THE POLYMER MARKET

- Production of polymers and polymeric materials in Russia: market conditions, drivers for industry development, government support
- Competitiveness of Russian producers of raw materials
- Development of the raw material base and increase the profitability of the polymer business
- Customization or unification for the brand range?

**11:30** Coffee Break

**12:00** Session 2. ADDITIVES AND FILLERS: RECIPES AND TECHNOLOGIES

- Future trends: advanced technologies, innovative materials
- Recipes as a key component for improving the quality of the final product
- Substitution of foreign additives for polymer compositions
- Additional materials for polymer production

**13:00** Lunch from the restaurant "Troekurov"

**13:00** Excursion program through the production area of the Extrol Extrusion Materials Plant

**14:30** Session 3. SOLUTIONS AND TECHNOLOGIES FOR POLYMER PRODUCTION

- Quality control of raw materials and final products
- Polymer technologies: recycling and quality
- Machines, equipment, technologies for polymer processing
- Support and servicing processes at manufacturing enterprises

**15:30** Coffee Break

**16:00** ROUND TABLES

- Prospects of the development for the polymer market in Russia. Commodity warfare and strategic management. Moderator Yuri Kholkin
- The development of technology and exclusive formulations for polymer production. Moderator Maria Bannikova
- Lean manufacturing: the way from implementation of system to monetization. Moderator Vladimir Vinogradov.

**16:00** PRODUCTION QUEST FOR STUDENTS

**18:30** SOLEMN COMPLETION OF THE FORUM

- Summing up the Forum
- Awarding the winners of the Production Quest
- Evening cocktail
- Gala dinner (by invitation)
